

Thank you, Dr. Naini!

From

Today I would like to commend Dr. Ali Naini of Kirkland to anyone reading this that might need a really good neurosurgeon. He attended medical school at Harvard University and graduated in 1983 having 30 years' experience.

I have had back problems for several years and have seen several neurologists and been given injections in my spine at both Virginia Mason Hospital and also at Pac Med Pain Clinic in Seattle. Some worked and some did not. Recently my neurologist gave up on helping me saying it was time for surgery. I was scheduled to have spine surgery; but, Dr. Naini instead sent me to have a few more tests at Evergreen Hospital and then to

Today I am 98% pain free. It is like a miracle. I feel like I have just been let out of prison --- a prison of pain.

I went to see Dr. Ali Naini today and he was so happy to hear of my improvement. He embraced me with a big hug and we both did a happy dance! I thanked him and commended him for his ability to diagnose me properly.
