Fax 425 / 899-6220

September 4, 2018

To All Patients of Rodney J. Johnson, MD, PhD:

This letter will serve to let you know that I am retiring effective December 21, 2018. I will not be on hand to provide health care after that date. If you need to get in to the office to see me before the closing date, please call my office and schedule an appointment at your earliest convenience.

It is very important for you to find a new physician to assume your care. It is never too early to start this process and I encourage you to do so at your earliest chance to ensure a smooth transition to your new health provider. If you need help in locating a new physician you should contact your health plan as they may have a physician directory of participating providers. Other resources include the (county, local) medical society or a physician referral service. Be sure to check with your health insurer to be certain the physician you select and the services he/she provides will be covered by your health plan.

I will continue to maintain the privacy and security of your medical record information according to state and federal law. Upon request, I will make a copy of your health record available to you or to any physician that you choose. For your convenience, attached to this letter is an authorization form for you to complete. Please return the completed authorization form to me with your instructions on where to send a copy of your health record. All health record requests should be mailed to the address listed below. This address is permanent and is the proper address for all record requests mailed both before and after the office closing date of December 21, 2018.

I wish to especially encourage patients being treated for pain to quickly seek a new provider as I expect it will be more difficult for those on pain medications to find a new provider than patients not taking pain medications.

NEUROSURGERY

Jeffrey E. Pearce, M.D., P.S.
Diplomate, American Board of Neurosurgery

Varun Laohaprasit, M.D., P.S.
Diplomate, American Board of Neurosurgery
